Languages known: English, Hindi , Kannada

Summary:

I am a tech enthusiast with expertise in developing dashboards and handling data. Passionate about leveraging RAG for semantic data retrieval. Skilled in Data Analysis, Power BI, Python, software testing, cloudbased technologies, and SQL. With a keen eye for research and open-minded to problem-solving.

Educational Qualifications:

- “Computer Science Engineering and minoring in Research” from “RV University ” CGPA-8.2
 - PUC from Surana Independent PU college -91.8%
-

Projects

- *Technical Paper - A RAG-Based Framework for Semantic Data Retrieval in Material Science* | explores the use (RAG) models for enhancing semantic data retrieval in material science. By leveraging NLP, embeddings, and KNN search, we’ve developed a novel approach to efficiently retrieve and analyze data from material science PDF’s. | [link](#)
- *Movie app using react.js* | A movie app by using React JS and using TMDB API key
- *Finance tracker application* | a financial tracker application using flask, with git actions with testing. | [link](#)
- *Power BI dashboard on supermarket sales* | Utilized the tools to create a visual representation. Of the dataset sales | [link](#)
- *Participation of women in election analysis* | took a data set and analysed the participation of women in elections of different states in the year 2019 | [link](#)

Pizza sales dataset: uncovered valuable insights into customer ordering patterns, revenue trends, and product performance. The dataset was provided in CSV format and contained multiple related tables. | [link](#)

skills

Data Analysis using python(pandas, matplotlib | Power BI | Database Management | Data Visualization | Communication | Public Speaking | HTML | CSS | Python | Large Language Model | Natural Language Processing | RAG | Machine Learning | JAVA | C. |MySQL

Certifications:

- Business Intelligence Using Power BI | [link](#)
 - AWS Cloud Quest: Cloud Practitioner | [link](#)
 - Tata Group - Data Visualisation: Empowering Business With Effective Insights | [link](#)
-
